WEEK 6: PLAN A LENTEN DEVOTIONAL THAT WILL BENEFIT GOD’S CREATION
The Creation Justice online community is doing a "Tread Lightly for Lent" devotional this year, adapted from the Presbyterian Hunger Program's Environmental Ministries 2018 resource. You may also consider trying a carbon fast. If you live in a place with an active state chapter of Interfaith Power and Light, it can be fun to find a local community doing a carbon fast together.

WEEK 7: USE GREEN CLEANING PRODUCTS
Did you know some cleaning products have toxic chemicals that can harm your health as well as pollute God’s creation? Check out our "Cleanliness and Godliness Toolkit" for ideas on greener cleaning.

WEEK 8: CHANGE YOUR LIGHTBULB TO ECO-FRIENDLY TYPES
CFL and LED bulbs can emit 25-80% less energy than traditional incandescents, plus they last longer! Consider this greener alternative when it comes time to replenishing those bulbs.

WEEK 9: TRACK YOUR WASTE FOR A WEEK
Keep track of the waste that you create for a week. How much of it can be replaced with recyclables or reusables. What can you challenge yourself to live without? Can you use less plastic by buying food items without packaging or that have paper instead?

Share with us on social media your #CareForCreation tips and tricks and how you've used our February list!
