

My chief concerns focus on the area of air pollution and it's effects on people and the environment. I live and pastor in Upper East Tennessee. The area in which I reside is only minutes away from the Great Smokey Mountains. While pastoring is my passion I am also a passionate outdoorsman. I grew up fishing and hunting and these activities are a huge part of who I am today. I pastor in an area where air pollution seems to be somewhat greater due to the industrialization. It's an area filled with manufacturing plants so my concern is not only for the environment but also for the people to which I have been charged by God to save and for future generations who should be able to enjoy the health and beauty of God's creation.
