

The Honorable Donald J. Trump
President of the United States of America
1600 Pennsylvania Ave NW
Washington, D.C. 20500

December 1, 2017

Dear President Trump:

As people of faith, we deeply value the ways our country's public lands conserve the natural, cultural, and spiritual riches we have been blessed to inherit from past generations. We believe we have a moral responsibility to pass these riches on to future generations.

Interior Secretary Ryan Zinke is recommending shrinking protected national monument areas, as well as allowing industrial activities such as commercial fishing, logging, or mining within their boundaries. Furthermore, threatened or endangered species as well as Native American sacred sites located within the boundaries of national monuments will be directly in harm's way.

Our public lands' conservation requires careful planning. Only the most delicate, culturally significant, and majestic parts of God's creation have been prioritized for the level of care which national monuments receive. Secretary Zinke's recommendations are inconsistent with our stewardship values. Please disregard Secretary Zinke's irresponsible recommendations and uphold all our national monuments.

With urgency,
